

ERP Management Software

cwd.co.in

OUR PROFILE

INTRODUCTION

- We take great pleasure in introducing **M/S SRI HEMA INFOTECH** as the best established in 2004 in Chennai, India by team of IT professionals.
- At first our services included only web design, but expanded to include web application, Software Development, e-solutions, web hosting, to clients through its cost-effective, high-value services model.

MISSION

- To provide innovative web solutions to companies that are user friendly both for the customer and administrator alike no matter how complex the project maybe.

VISION

- To provide web solutions globally and be recognized as the go-to complete online solution in every sector and internet marketing.

OUR SERVICES

- Online & System Base Softwares
- Mobile Application
- Web Design
- Domain Name & Web Hosting
- Shopping Carts - E-Commerce
- Data base development
- SEO & SMO

INTRODUCTION

❖ Education system forms the backbone of every nation. And hence it is important to provide a strong educational foundation to the young generation to ensure the development of open-minded global citizens securing the future for everyone.

❖ Advanced technology available today can play a crucial role in streamlining education-related processes to promote solidarity among students, teachers, parents and the school staff.

❖ ERP Management System consists of tasks such as registering students, attendance record keeping controlling absentees, producing report cards, producing official transcript, preparing timetable and producing different reports for teachers and parents.

EXISTING SYSTEM

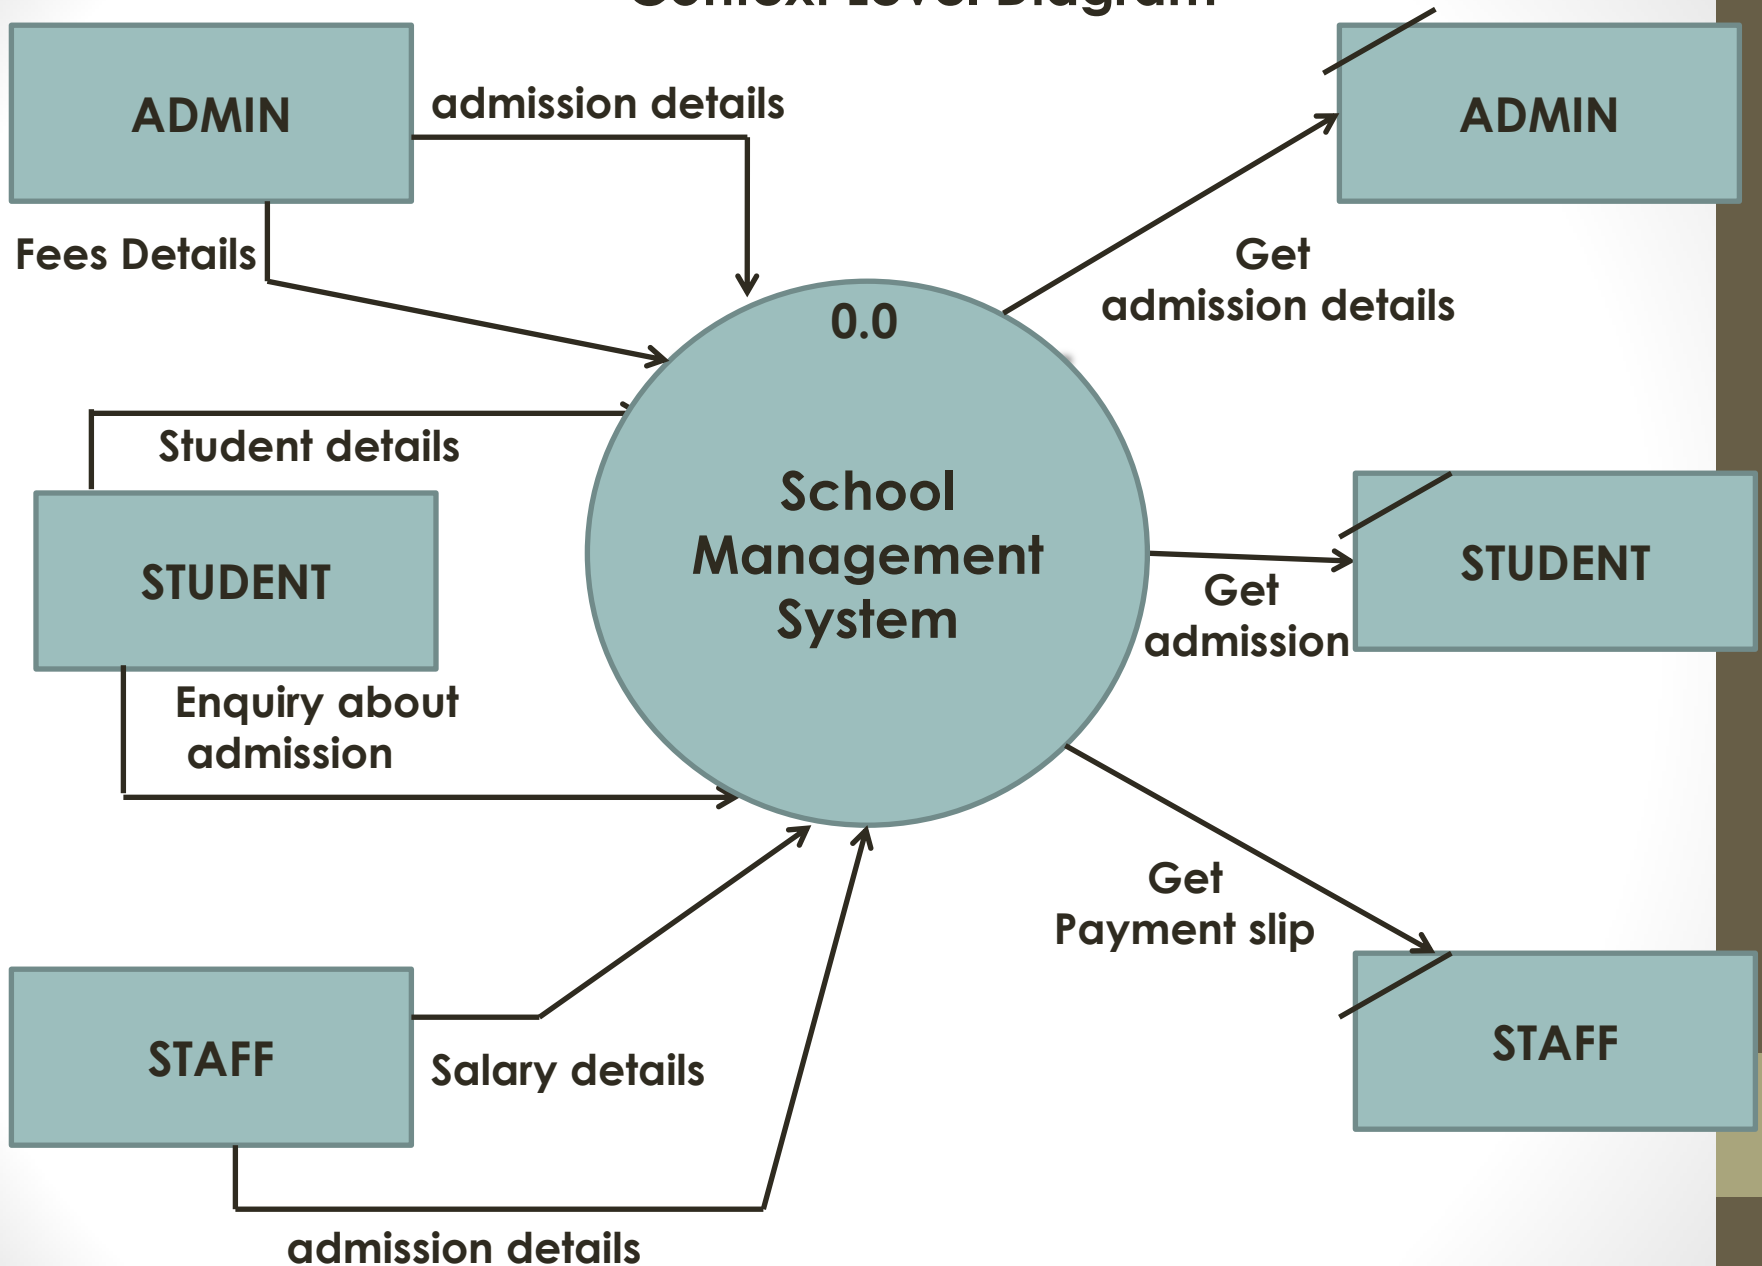

- In the current system we need to keep a number of records related to the student and want to enter the details of the student and the marks manually. In this system only the teacher or the school authority views the mark of the student and they want to enter the details of the student. This is time consuming and has much cost.
- In our proposed system we have the provision for adding the details of the students by themselves. So the overhead of the school authorities and the teachers is become less. Another advantage of the system is that it is very easy to edit the details of the student and delete a student when it found unnecessary. The marks of the student are added in the database and so students can also view the marks whenever they want.
- Our proposed system has several advantages:
 - ❖ User friendly interface
 - ❖ Fast access to database
 - ❖ Less error
 - ❖ More Storage Capacity
 - ❖ Search facility
 - ❖ Look and Feel Environment

SCOPE OF WORK

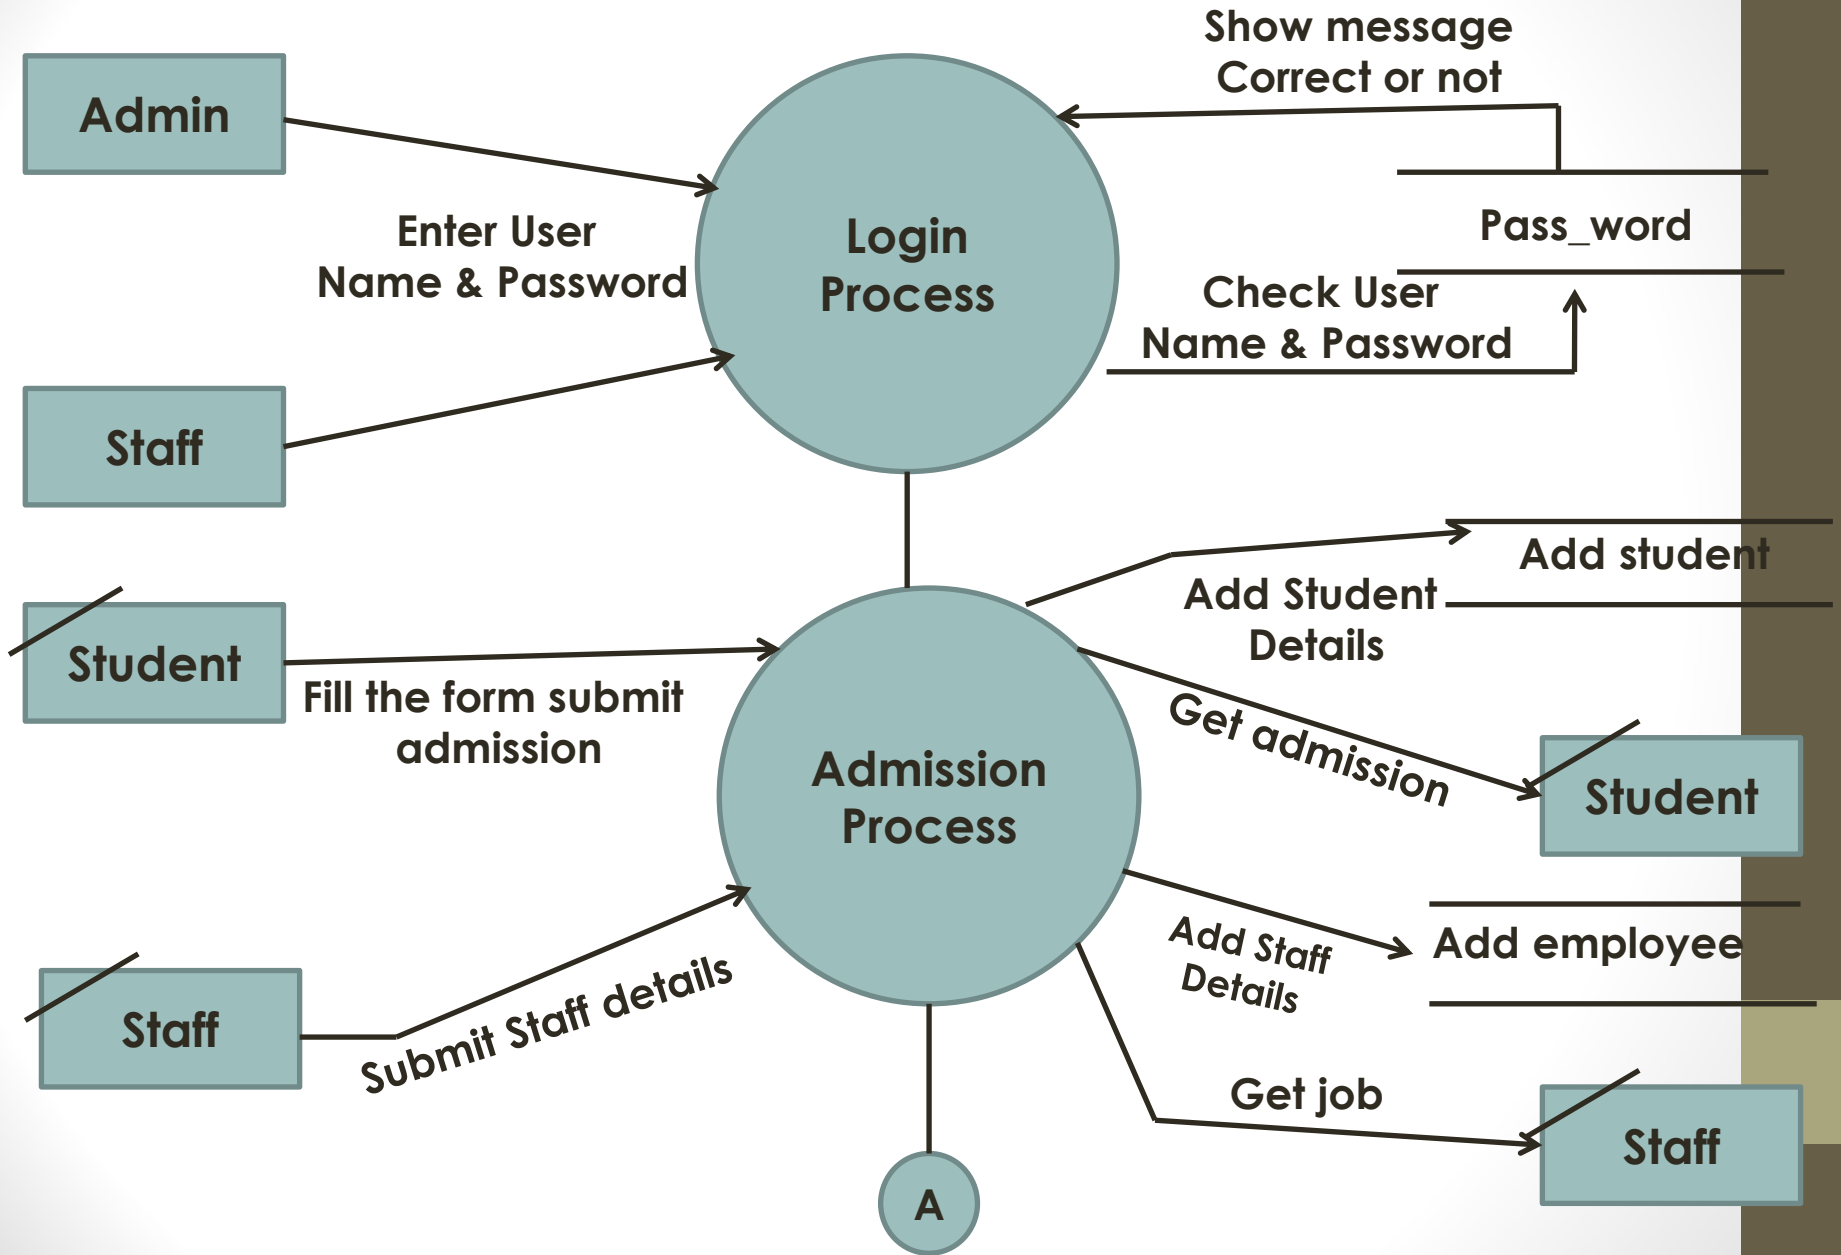

- The purpose of any new technology is to make people life easier. This project is database used to manage the records and allows the administrators to register the daily required information of Students, Teachers & office staff.
- ERP Management System will organize work inside school and college proposed system will do the following tasks:
 - ❖ Insert student's information such as student name, student number, address etc.
 - ❖ Insert employee's information such as employee name, number, address etc.
 - ❖ Insert section's information such as section name etc.
 - ❖ Insert marks for each student in each subject he/she taken.
 - ❖ View data about certain student and can edit it like adding or removing a student.
 - ❖ View data about certain employee and can edit it like adding or removing an employee.

2. Student Module:

- Student Information Management System provides a simple interface for maintenance of student information.
- **Student Master:**
 - ✓ Create edit, delete, student id entry, promotion.
 - ✓ Create login to students.
 - ✓ Create Edit, delete of degree details of student.
 - ✓ Create edit, delete of course and semester details of student.
- **Student Transaction:**
 - ❖ View student details
 - ❖ View new admission details
 - ❖ View updated student-id details
 - ❖ View promotion details

- **Edit student details:**
- We can alter or edit the student entry list

The screenshot shows the 'ERP Management System' interface. The top header is pink with the title 'ERP Management System' and a 'Logout' button. Below the header is a navigation sidebar on the left with options: Search, Admissions, Student, Attendance, Fees, Payroll, Academic, Facilities, Reports, SMS, Inventory, and Tools. The 'Student' option is selected. The main content area is titled 'Edit Student' and contains three dropdown menus: 'Degree', 'Course', and 'Semester'. The 'Degree' dropdown is open, showing options: '<-- Select degree -->', '<-- Select degree -->', and 'UG'. A red circle highlights the 'Degree' dropdown, and an arrow points from it to a text box that says 'Search details for edit, delete, and update student details'. To the right of the dropdowns are 'Submit' and 'Close' buttons. Below the form is a table with columns: Degree, Course, Sem, Admission No, Stu_Id, Univ No, Student Name, Father Number, Father's Name, and Edit. The table currently shows 'No Records Found'.

- Edit the details and click on the “Edit” button

3. Attendance Module:

- Attendance Management System is software developed for daily student attendance in schools, colleges and institutes. It facilitates to access the attendance information of a particular student in a particular class.
- **Attendance Master:**
 - Enter the degree name
 - Enter the course and department name
 - Enter the academic year and date of admission details
- **Attendance Transaction:**
 - View the Attendance report
 - View the attendance entry
 - View the attendance list by semester wise
 - View of attendance session

- Attendance main page:

The screenshot displays the 'ERP Management System' interface. At the top, a pink header bar contains the system name and a 'Logout' button. Below this, a navigation bar shows the current path: 'Home > Management > Degree'. The main content area is a green dashboard with various module icons: Admissions, Attendance, Fees, Payroll, Academic, Facilities, Reports, SMS, Inventory, and Tools. The 'Attendance' icon is highlighted with a red circle. A callout box points to this icon, stating: 'Attendance Module is for entering the attendance details for student, staff and attendance session also defined'. The left sidebar contains a search bar and a list of modules, with 'Attendance' and its sub-items ('Student Attendance', 'Staff Attendance', 'Attendance Session') expanded.

Tools used to Add New degree,
Course, department, subject, syllabus list

- **Adding New Degree in home page list:**
- To add further new degree, course, department, subject details in the admission list. We can edit/delete the details.

The screenshot displays the ERP Management System interface. The top header is pink with the text "ERP Management System" and a "Logout" button. The left sidebar contains a search bar and a list of menu items: Admissions, Student, Attendance, Fees, Payroll, Academic, Facilities, Reports, SMS, Inventory, and Tools. The main content area is divided into two sections: "Add Degree" and "Degree Details".

In the "Add Degree" section, there is a form with a "Degree" label and two input fields. The first input field contains "UG" and is circled in red. The second input field contains "ug". A "Submit" button is below the input fields. A text box to the right of the input fields says "Example UG or PG or P.hd". An arrow points from the "Add Degree" section to the "Degree Details" table.

The "Degree Details" section shows a table with the following data:

S.No	Degree	Edit	Delete	Status
1	UG			

A red rectangle highlights the "Degree Details" table. A text box to the right of the table says "Adding degree details in the admission list".

- Adding New Course Details

The screenshot displays the 'ERP Management System' interface. On the left is a blue sidebar menu with options: Search, Admissions, Student, Attendance, Fees, Payroll, Academic, Facilities, Reports, SMS, Inventory, and Tools. The main content area is divided into two sections. The top section, titled 'Add Course', contains a form with a 'Degree' dropdown set to 'UG' and a 'Course' text input containing 'B.Com'. A 'Submit' button is below the input. An annotation box with the text 'Adding "New Course" list' has an arrow pointing to the 'Course' input field. The bottom section, titled 'Course Details', shows a table of added courses. An annotation box with the text 'Added list of New Course list' has an arrow pointing to the table. The table has columns for S.No, Degree, Course, Edit, Delete, and Status.

S.No	Degree	Course	Edit	Delete	Status
1	UG	B.Com General			
2	UG	B.A English			
3	UG	B.C.A			
4	UG	B.Sc Computer Science			
5	UG	B.Sc Maths			
6	UG	B.Com (ICS)			
7	UG	B.B.A			

- Adding New Department Details

The screenshot displays the ERP Management System interface. The top header is pink with the title 'ERP Management System' and a date/time stamp 'Date : 12/11/2015 Time : 10:23:04 PM'. A left sidebar contains navigation links: Search, Admissions, Student, Attendance, Fees, Payroll, Academic, Facilities, Reports, Sales, Inventory, and Tools. The main content area is divided into two sections. The top section, 'Add Department', contains a form with the following fields: Degree (dropdown menu set to 'UG'), Course (dropdown menu set to 'B.C.A'), Department (text input field containing 'computer application'), and Total semester (text input field containing '6'). A 'Submit' button is located below the form. The bottom section, 'Department Details', shows a table with the message 'Department Added Successfully' above it. The table has columns for S.No, Degree, Course, Department, Semesters, Edit, Delete, and Status. The second row of the table is highlighted with a red oval, corresponding to the data entered in the form above: S.No 2, Degree UG, Course B.C.A, Department COMPUTER APPLICATION, Semesters 6, Edit (pencil icon), Delete (X icon), and Status OK (green button). A callout box with the text 'Adding new department details' has an arrow pointing to the 'Add Department' form.
